报告人简介：

Zhen Xu is an Associate Professor and Graduate Chair of the Department of Biomedical Engineering at the University of Michigan. She is also an associate editor for IEEE Transactions on Ultrasound, Ferroelectrics, and Frequency Control (UFFC), WIE chair for IEEE UFFC, and board member of ISTU. Her research is focusing on ultrasound therapy, particularly the applications of histotripsy for noninvasive surgeries. She has received multiple awards, including the IEEE UFFC Outstanding Paper Award and Federic Lizzi Early Career Award from The International Society of Therapeutic Ultrasound (ISTU).

Dr. Hubert Pun is a professor and the Ph.D. program coordinator of the Management Science area group at the Ivey Business School (Western University). His research interests include marketing/operations interface, co-operative supply chain management, and healthcare operations management. He has published in Manufacturing & Service Operations Management, Production and Operations Management, Decision Sciences, etc. Currently, he is serving as an associate editor at International Journal of Production Research.
